Figure 7

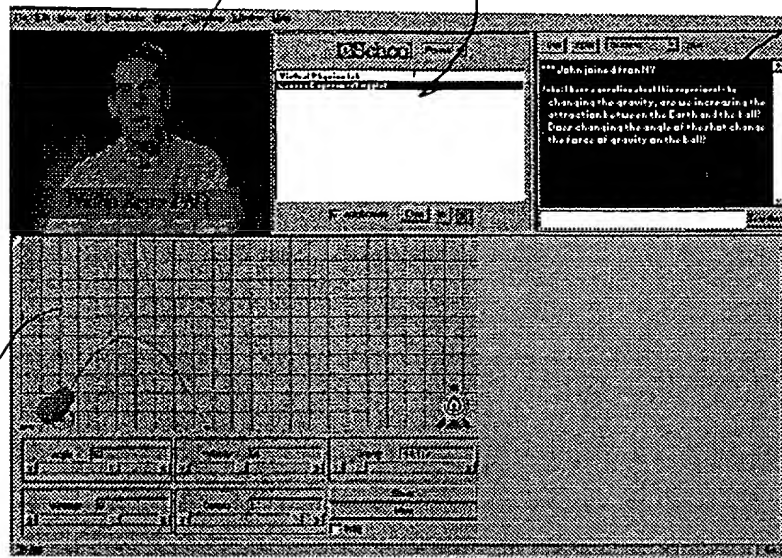

Figure 8

Figure 9

Figure 2 is a database schema diagram showing the relationships between several tables. The tables and their attributes are as follows:

- Table 200:**
 - attribute
 - attribute_id INT
 - desc TEXT(32) (IE)
- Table 202:**
 - htvuser
 - user_id INT
 - uid TEXT(16) (AK)
 - name TEXT(50)
 - pw TEXT(50)
- Table 204:**
 - htvdir
 - dir_id INT
 - name TEXT(50)
 - parent_fk INT
- Table 206:**
 - donut
 - donut_id INT
 - desc TEXT(50)
 - shared BOOL
- Table 208:**
 - donut_hlter
 - parent_fk INT
 - child_fk INT
- Table 210:**
 - attribute
 - attribute_id INT
 - desc TEXT(32) (IE)
- Table 212:**
 - crumb
 - value TEXT(50)
 - attribute_fk INT
 - donut_fk INT

The relationships between the tables are indicated by lines with crow's foot notation:

- Table 202 to Table 200:** A one-to-many relationship. A solid line with a crow's foot symbol connects the user_id attribute of Table 202 to the attribute_id attribute of Table 200.
- Table 204 to Table 200:** A one-to-many relationship. A solid line with a crow's foot symbol connects the dir_id attribute of Table 204 to the attribute_id attribute of Table 200.
- Table 206 to Table 200:** A one-to-many relationship. A solid line with a crow's foot symbol connects the donut_id attribute of Table 206 to the attribute_id attribute of Table 200.
- Table 206 to Table 212:** A one-to-many relationship. A solid line with a crow's foot symbol connects the donut_id attribute of Table 206 to the donut_fk attribute of Table 212.
- Table 206 to Table 208:** A one-to-many relationship. A solid line with a crow's foot symbol connects the donut_id attribute of Table 206 to the parent_fk attribute of Table 208.
- Table 208 to Table 206:** A one-to-many relationship. A solid line with a crow's foot symbol connects the parent_fk attribute of Table 208 to the donut_id attribute of Table 206.
- Table 208 to Table 210:** A one-to-many relationship. A solid line with a crow's foot symbol connects the parent_fk attribute of Table 208 to the attribute_id attribute of Table 210.
- Table 208 to Table 212:** A one-to-many relationship. A solid line with a crow's foot symbol connects the parent_fk attribute of Table 208 to the donut_fk attribute of Table 212.
- Table 202 to Table 204:** A one-to-many relationship. A dashed line with a crow's foot symbol connects the user_id attribute of Table 202 to the dir_id attribute of Table 204.
- Table 202 to Table 208:** A one-to-many relationship. A dashed line with a crow's foot symbol connects the user_id attribute of Table 202 to the parent_fk attribute of Table 208.
- Table 202 to Table 210:** A one-to-many relationship. A dashed line with a crow's foot symbol connects the user_id attribute of Table 202 to the attribute_id attribute of Table 210.
- Table 202 to Table 212:** A one-to-many relationship. A dashed line with a crow's foot symbol connects the user_id attribute of Table 202 to the donut_fk attribute of Table 212.
